Chocolate mousse

consistency for your mousse.

Breton cacao

With a stand mixer, mix the egg yolks and sugar. Next add the butter and finally the dry ingredients. Once completely incorporated, place the mixture in a piping bag and put it in the fridge.

Butter the ring molds and place them on a baking sheet with parchment paper. Fill them to 1/4 and then place the baking sheet in the oven. It should take roughly 15-20 minutes to cook, and they should be done with a nice golden brown color.

Remove the ring molds as soon as you remove the sheet from the oven, wait 5 minutes, and then cut them in half, lengthwise.

Chocolate crisps

Melt the chocolate on top of a double boiler and place the bowl of melted chocolate in the coolest room of your house. Once the chocolate reaches 30/32°C. Once the chocolate reaches the desired temperature it can be spread on plastic sheets and placed in the freezer for a few minutes so they harden. Once hardened, you can break off the pieces of chocolate to get the crisps the desired size to decorate your glasses.

Chocolate sauce

In a sauce pan, pour the water, sugar and bring to a boil. Add the cocoa powder and whisk until it boils. Lower the heat to simmer and reduce the sauce until desired consistency.

Dressing

Fill your serving glasses halfway with the chocolate mousse. Once it's set, pour on the top the ganache cream. Once the ganache has set, make a whole in the center of the creams and pour the chocolate sauce in the middle. Cover with a few chocolate crisps to add some height.

Bon appétit!
