- 1 Unit(s) Egg
- 115 Gr Ricotta
- 5 Gr Salt

Cream sauce

- 1 Unit(s) Onion
- 8 Slice(s) Prosciutto
- 100 Ml White wine
- 200 Ml Crème fraiche
- 8 Leaf(ves) Sage

Preparation

- Preparation time **60.00 mins**

Cavatelli

Strain the ricotta to remove excess water. Combine the cheese and eggs in a mixing bowl. Set aside. Combine the salt and flour and place it on a flat work surface, making a well in the middle. Pour the liquids into the center of the well and incorporate all of the ingredients until you reach a smooth consistency. Roll the dough into a cylinder roughly 1cm in diameter and cut into small tubes. Shape the cavatelli. Cook in boiling salted water for about 3 minutes.

Cream Sauce

Finely chop the onions and then sweat them in a sauce pot with a bit of olive oil on medium heat. Next, add the white wine and reduce by about 3/4.

Finely slice the prosciutto and sage and then add them to the saucepot.

Bon appétit!
